Game of Thrones Countdown app:

Thank you for your checking out my app. The full source code is available, but if you just want to run it without compiling, here's how to do it:

Using a Mac computer…

Visit this link:
https://github.com/Tiger-Coding/gameofthronescountdown

Click download:

It will download a zip file. Save that to your desktop or some other location. Double-click it to unzip…

A folder will appear. Double-click it to show the contents…

Open the folder and the GoT app will be there.
